VMD 105

I'm taking this class because it is a prerequisite for taking the 2D Animation class and my goal it to become an animator.

EFSF
EARTH FEDERATION SPACE FORCE

Photoshop

What I did in photoshop was just create what represents my hobby and also show the skills I have in Photoshop.

Fat BAT

Illustrator

In this project, I create a different style of Batman because he is one of my favorite character in DC comics. I made him look more fatter and more compelling.

Animate

In this project, I created an ant follows an apple but when the ant come to the apple, the apple disappeared and the ant fly away. After that, there are 3 apples will fall down to the ground as if nothing happen.
